

## The digital front door your town *already needed.*

A branded website with an AI assistant that answers every question about your community — events, businesses, how-to's — drawing only on knowledge your team has verified. Standing by in under an hour.

### ONE PLATFORM · EVERYTHING YOUR COMMUNITY ASKS

#### Ask-anything AI

Residents and visitors get instant answers, pulled only from knowledge your team has approved — never made up.

#### Business directory

Every downtown storefront and service, searchable, mapped, and always current.

#### Events calendar

One home for every festival, game, market, and meeting — no more scattered flyers.

#### Sponsorship engine

Turn your homepage into recurring revenue. Slots and tiers built in — some sell before you launch.

#### Yours, end to end

Your subdomain, your colors, your logo. A site that looks like your community, not a template.

#### Two-tier control

Your team edits content in a simple admin. We keep the platform running behind the scenes.

### MADE FOR MAIN STREET — AND FRIDAY NIGHTS

One system, tuned to who you are.

### CHAMBERS & MAIN STREET

### CITIES & DOWNTOWNS

Development authorities and city halls get a living hub for residents and visitors.

### SCHOOLS & CAMPUSES
